## The Pediatric Palliative and Chronic Patient: Ethical and Medical Challenges and Opportunities

**Sponsor: University of Iowa Stead Family Children's Hospital Pediatric Pain and Palliative Care  
Program**

**Purpose/Description:**

This program will explore issues common to pediatric patients and families coping with chronic medical  
conditions.

**Objectives:**

1. Describe the developmental understanding of grief and bereavement for children and adolescents, and list  
tools to utilize when working with children and adolescents at end of life.
2. Discuss the complex issues of professional boundaries when working with patients as they move from  
childhood to adulthood.
3. Discuss scenarios to evaluate decision-making practice and identify ethical tools to develop a sense of  
professional balance when dealing with complex decisions.
4. Identify the unique needs of the adolescent and young adult cancer patient.
5. Identify ways in which kidney disease impacts a pediatric patient's day-to-day life.
6. Discuss the long-term impacts of transplants on pediatric patients.
